The Oldest and Largest Manufacturers of Shoe Polishes in the World.

WHITAKER CASE IN JURY'S HAND

They Ask for Instructions After an Hour of Consideration—Final Testimony and Arguments in \$16,000 Breach of Contract Case; Occupied Superior Court Here on Monday

The long trial of the \$16,000 damage suit for breach of contract brought by Walter O. Whitaker against the Thames River Specialties company reached the hands of the jury late Tuesday afternoon in the superior court here. After having it under consideration about an hour, the jury came in at 5:44 and announced through Foreman Ashley T. Boon that they had not agreed upon a verdict, but wanted more instruction. When this had been given by Judge Milton A. Shumway he excused them until the next morning, when they will resume deliberation on the case.

After the early part of the morning Tuesday occupied in taking the final testimony, the plaintiff's attorneys, J. J. Desmond and Edmund W. Perkins, announced at 10:40 a. m. that they were ready to rest their case. Major Hadlai A. Hull and his son rested the case for the defendants at the same time.

Attorney Perkins made the first argument for the plaintiff, speaking for 61 minutes. He was followed by Attorney C. Hadlai Hull in an argument, when the court took a recess until 2 o'clock.

After the noon recess Major Hull occupied 54 minutes with his argument for the defendant, and Attorney Desmond used about an hour with his concluding argument for the plaintiff. In this he claimed that the damages the plaintiff claimed were \$11,444, figuring a total due him of \$18,457 under his contract and employment, with a deduction of \$7,013, which included what he had been paid and what he had earned in other employment.

Judge Shumway at once made his charge to the jury, speaking for about 35 minutes, and putting the case in their hands at 2:44 with the instruction that she should allow them to deliberate until 5:30, but would excuse them then until the next day if they had not reached a verdict. Judge Shumway told the jury that there were four questions of fact for them to consider. He explained each one in the order that they came up for consideration in reaching a verdict. These four questions, he said, were:

1—Was the plaintiff a competent superintendent of paper making of the grade and character he was engaged to superintend the making of?

2—Was he unskillful and careless in his work and willfully disobeyed the reasonable orders of his employers? Was the plaintiff concerned in other business than his employer's during the term of the contract?

3—Was the product of the defendant's mill defective or unmarketable and was such defect the result of the incompetency or lack of skill on the part of the plaintiff?

But the third question, the judge told the jury, was excluded from the case, as no claim on this point had been pressed in the trial. The judge said that proof of incompetency or unskillfulness or of disobedience of orders would all be grounds for lawful discharge, and told the twelve men that the question of competency or incompetency was the real issue in the case. Judge Shumway went into the question of the assessment of damages in case a verdict was found for the plaintiff, explaining the law that governs such a case, which entitled the plaintiff to his wages from the time of the discharge up to the time of the expiration of the contract in October, 1913, less the value of his time to himself in that time, which might be covered by the wages that he was actually earning or could have earned in the exercise of due diligence.

Final Evidence.

The first witness called Tuesday morning was Mr. Whitaker, the plaintiff, who testified that since he had been discharged he had earned \$776

working for his father, who is a contractor, \$90 when he was employed by the Norwich and New York Propeller company, and \$2,330 in the employ of the Natick Paper Box company.

Elmer E. Kenneron of Montville, now with the Uncas Paper company and formerly 12 years with them as engineer and two years with the Thames River Specialties company, testified that on the night Mr. Whitaker was discharged the witness was called to the office by Mr. Van Rensselaer, the president, who told Mr. Kenneron that he was not discharging Mr. Whitaker for any fault about the mill, but that Mr. Whitaker did not cater to Mr. Van Rensselaer as much as he ought to.

Later on the witness stand Mr. Van Rensselaer denied that he said this. Records of debates made while Mr. Whitaker was superintendent were shown by Horatio Bigelow, who said that while Mr. Whitaker was there as superintendent the debates amounted to nine per cent, but afterwards they amounted to only one-half of one per cent.

Jury Asked Instructions.

When the jury came in late in the afternoon, Foreman Ashley T. Boon asked to know if they could take the four questions up in sequence, and if settling the first, which referred to competency, excluded all the others. The judge said it did not if they answered it affirmatively. The foreman further said they would like to have given them the amounts that Mr. Whitaker had earned after his discharge. This was given to them.

Another Jurymen Asked If They Found Mr. Whitaker Competent and Not Careless, Whether They Might Go Ahead and Disobey Orders.

The judge answered this in the affirmative.

MILLIONAIRE WILL WED ONE TIME SCHOOL TEACHER

Morton F. Plant to Marry Mrs. Selden B. Manwaring, Now of Hartford.

Morton F. Plant, of Groton, whose fortune is estimated at \$50,000,000, has confirmed a report of his engagement to Mrs. Selden B. Manwaring of Hartford. Mr. Plant told a reporter the marriage might take place in August.

"In saying that you interviewed me on the subject," continued Mr. Plant, "please state that I deny emphatically any report that I will marry in June. My wife has been dead less than a year, and that is sufficient reason why the wedding will not take place next month. You may say that I expect to marry again, but not before August. The date has not been set definitely."

Mr. Plant will be 62 years old on Aug. 18. His prospective bride is 31. Mrs. Manwaring has lived with her mother, Mrs. Rowena Cadwell, of No. 137 Sigourney street, Hartford, since the beginning of domestic troubles, which culminated in her divorce on April 21. Mrs. Manwaring began an action for divorce on March 28, 1914, alleging statutory offenses. The action was undefended, and she obtained an absolute decree and the custody of her son, Philip Morgan Manwaring, who is 12 years old.

Miss Cadwell had taught a district school in Waterford, Conn., only a few months when she married Mr. Manwaring, who was a school committeeman of that town. Mr. Manwaring is five years her senior. He is a member of the Democratic state central committee, and for several years he has conducted the Oregatechic House and cottages at Waterford. He has had business dealings with Mr. Plant and their relations have been friendly.

Mr. Plant married Miss Nellie Capron, of Baltimore, June 23, 1888, when

she was 25 years old. She was attractive and accomplished and she specialized in the study of medieval architecture. She supervised the drawing of the plans for Branford House, the Plant summer home at Eastern Point, which was built at a cost of \$2,000,000. Mrs. Plant died of typhoid fever after a long illness on Aug. 7, 1913. Mr. Plant's yacht, the Eliza, then was leading the New York Yacht Club for the Rear Commodore Cup. Out of respect to his wife Mr. Plant ordered the Eliza to leave New- port at once and go out of commission.

Mr. Plant has a son, Henry Bradley Plant, 17 years old, a student at the expensive Boys' School at Pomfret, where the Manwaring's son is also a student.

Mr. Plant has a New York home at No. 2 East Fifty-second street and an office at No. 71 Broadway. He was born in Branford, New Haven, and educated in Russell College there.

Mrs. Manwaring is fair, of pleasing appearance and a little above the medium height. She and her mother were at the Vanderbilt Hotel, New York, last week, and Mr. Plant also was registered there. Mrs. Manwaring bought her wedding trousseau on this trip, it is said.

Mr. Plant has made many improvements and embellishments at Branford House this spring, and he has told friends that he proposed to entertain much during the summer.

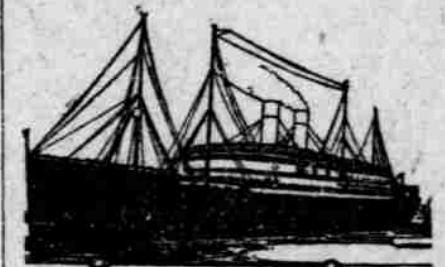

For 16 years Mr. Plant has distributed public and private benefactors in New London and Groton with a lavish hand. He has built many miles of splendid highways, has purchased and improved the trolley lines eastward from New Haven and northward to the Massachusetts line, built churches and hotels, and given away parks and baseball fields. The Griswold hotel at Eastern Point, which he built at a cost of \$1,000,000, is the largest summer hotel between New York and Boston, and is the resort of wealth and fashion. He would have built this hotel on the New London side of the harbor on the site of the burned Pequot House, had not the price of the land been raised \$50,000 when it was learned he was negotiating for it.

Recently the town of Groton made a 10 per cent addition to his tax list because of his agent's failure to file it within the specified time.

Gift for Policemen.

The police department has received a gift from the Lee & Osgood company of about 40 boxes of vacuum powder to be presented to the regulars and supernumeraries of the force. Each box is wrapped up separately and individually addressed to the officer for whom it is intended.

Meriden.—The babies' milk station at the Y. M. C. A. will be opened July 1. The nurse in charge has not yet been appointed.

Why Physicians Recommend Castoria

CASTORIA has met with pronounced favor on the part of physicians, pharmaceutical societies and medical authorities. It is used by physicians with results most gratifying. The extended use of Castoria is unquestionably the result of three facts: **First**—The indisputable evidence that it is harmless; **Second**—That it not only allays stomach pains and quiets the nerves, but assimilates the food; **Third**—It is an agreeable and perfect substitute for Castor Oil. It is absolutely safe. It does not contain any Opium, Morphine, or other narcotic and does not stupefy. It is

unlike Soothing Syrups, Bateman's Drops, Godfrey's Cordial, etc. This is a good deal for a Medical Journal to say. Our duty, however, is to expose danger and record the means of advancing health. The day for poisoning innocent children through greed or ignorance ought to end. To our knowledge, Castoria is a remedy which produces composure and health, by regulating the system—not by stupefying it—and our readers are entitled to the information.—*Hall's Journal of Health.*

The Kind You Have Always Bought and which has been in use for over 30 years, has borne the signature of Chas. H. Fletcher, and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

GENUINE CASTORIA
Bears the Signature of

Letters from Prominent Physicians Addressed to Chas. H. Fletcher.

Dr. W. L. Leister, of Rogers, Ark., says: "As a practicing physician I use Castoria and like it very much."

Dr. W. T. Seeley, of Anity, N. Y., says: "I have used your Castoria for several years in my practice and have found it a safe and reliable remedy."

Dr. Raymond M. Everts, of Santa Ynez, Cal., says: "After using your Castoria for children for years it annoys me greatly to have an ignorant druggist substitute something else, especially to the patient's disadvantage, as in this case. I enclose herewith the wrapper of the imitation."

Dr. R. M. Ward, of Kansas City, Mo., says: "Physicians generally do not prescribe proprietary preparations, but in the case of Castoria my experience, like that of many other physicians, has taught me to make an exception. I prescribe your Castoria in my practice because I have found it to be a thoroughly reliable remedy for children's complaints. Any physician who has raised a family, as I have, will join me in heartiest recommendation of Castoria."

Dr. W. F. Wallace, of Bradford, N. H., says: "I use your Castoria in my practice, and in my family."

Dr. Wm. I. McCann of Omaha, Neb., says: "As the father of thirteen children I certainly know something about your great medicine and aside from my own family experience, I have, in my years of practice, found Castoria a popular and efficient remedy in almost every home."

Dr. Howard James, of New York, City, says: "It is with great pleasure that I desire to testify to the medicinal virtue of your Castoria. I have used it with marked benefit in the case of my own daughter, and have obtained excellent results from its administration to other children in my practice."

Dr. J. R. Clausen, of Philadelphia, Pa., says: "The name that your Castoria has made for itself in the tens of thousands of homes blessed by the presence of children, scarcely needs to be supplemented by the endorsement of the medical profession, but I, for one, most heartily endorse it and believe it an excellent remedy."

Dr. B. Halstead Scott, of Chicago, Ill., says: "I have prescribed your Castoria often for infants during my practice and find it very satisfactory."

Dr. William Belmont, of Cleveland, Ohio, says: "Your Castoria stands first in its class. In my thirty years of practice I can say I never have found anything that so filled the place."

Dr. R. J. Hamlen, of Detroit, Mich., says: "I prescribe your Castoria extensively as I have never found anything to equal it for children's troubles. I am aware that there are imitations in the field, but I always see that my patients get Fletcher's."

Dr. Channing H. Cook, of Saint Louis, Mo., says: "I have used your Castoria for several years past in my own family and have always found it thoroughly efficient and never objected to by children, which is a great consideration in view of the fact that most medicines of this character are obnoxious and therefore difficult of administration. As a laxative I consider it the peer of anything that I ever prescribed."

Dr. L. O. Morgan, of So. Amboy, N. J., says: "I prescribe your Castoria every day for children who are suffering from constipation, with better effect than I receive from any other combination of drugs."

Dr. H. J. Taft, of Brooklyn, N. Y., says: "I have used your Castoria and found it an excellent remedy in my household and private practice for many years. The formula is excellent."

Dr. Wm. L. Bosserman, of Buffalo, N. Y., says: "I am pleased to speak a good word for your Castoria. I think so highly of it that I not only recommend it to others, but have used it in my own family."

Dr. F. H. Kyle, of St. Paul, Minn., says: "It affords me pleasure to add my name to the long list of those who have used and now endorse your Castoria. The fact of the ingredients being known through the printing of the formula on the wrapper is one good and sufficient reason for the recommendation of any physician. I know of its good quality and recommend it cheerfully."
